Phil, Mark – What do you think about scheduling the presentation on wild rice sulfate WQS for our Thurs., May 8th conference call at 9 a.m.? About how much time would you prefer for this presentation/discussion? At this time, you can have the full hour on the May 8th call, if desired. I suggest we plan to distribute PowerPoint slides in advance of this call in lieu of a webinar format. If you'd prefer webinar format though, please let me know, and I will coordinate this. Thanks.

Subject: MN Preliminary Analysis of the Wild Rice Sulfate Standard Study

Hi Angela and Candace,

As suggested by Chris I've attached the announcement regarding our preliminary analysis of the WR sulfate WQS.

The link to the MPCA web site for the same issue is below.
